What is SOF ?

SOF is a registered, not for profit education foundation set up in 1998 to promote a scientific temper among school students. It encourages development of a scientific aptitude through innovative activities and use of information technology in the learning process across the globe – thus creating an international fraternity of which students and their institutions are proud to be members.

SOF conducts four Olympiad exams in an endeavour to develop a greater competitive spirit, better assessment and exploration of potential among students. The following Olympiads are conducted each year:

SOF – National Cyber Olympiad (SOF-NCO)

SOF – National Science Olympiad (SOF-NSO)

SOF – International Mathematics Olympiad (SOF-IMO)

SOF – International English Olympiad (SOF-IEO)

(In partnership with The British Council)

During 2014-15, over 31,500 schools from more than 1400 cities registered and millions of students appeared for the above Olympiads. These Olympiads were conducted across 19 countries.

All students from classes 1 to 12 are eligible to participate (Except NCO-Class 2 to 12). The detailed analysis and results of these tests for each student & each school will be highly beneficial to student and parents for assessing the growth and development of the participating students.

The registration fee is Rs.120 per Olympiad exam.

Your child's school is participating in the 2015-16 SOF Olympiads. To register please return the completed Student Consent Form to the school co-ordinating teacher along with the registration fee.

Please contact the Principal or your child's class teacher for further information on the procedures of participation. For practice questions and other details, please visit our **website www.sofworld.org or www.facebook.com/sofworld**

Yours sincerely,
For Science Olympiad Foundation

Mahabir Singh
Executive Director
