

EMBA Director's Scholarships

Up to five scholarships are available across the two intakes of the EMBA programme. All are partial awards, covering a portion of programme fees. The size of the award will vary according to each scholar's circumstances.

Eligibility:

Scholarship selection will be based on: academic excellence (candidates must be educated to degree level), financial need, how your background will enhance the diversity of the cohort, and how the programme will benefit your sector/region in the long-term.

Preference will be given to candidates that can effectively demonstrate how they will enhance the learning experience of the cohort through the diverse experience they have accumulated to date. This could include experience in working across multiple sectors and regions especially emerging markets.

Preference will also be given to candidates from emerging markets or non-traditional backgrounds, such as (but not exclusively) voluntary charitable organisations, international organisations and military backgrounds.

How to apply and deadlines:

If you wish to be considered for the scholarship, you must do the following:

- Select 'Director's Scholarship' in the Funding section of the application form;
- Upload your scholarship essay in the Funding section of the application form. The essay question is: In no more than 300 words, demonstrate how your background will enhance the diversity of the EMBA cohort and how the programme will benefit your sector/region in the long-term;
- Complete the financial need assessment form and upload this to the Funding section of your application form;
- Submit a complete programme application.

For the September 2017 EMBA cohort, all of the above must be completed by the deadline of **22nd May 2017**. For the January 2017 cohort, the deadline is **11 September 2017**. Only offer-holders who complete all of the above by the deadline will be considered for the scholarship. Applications received after this date will only be considered if scholarships are still available once decisions have been made for applications received by the deadline.

Selection for the September 2017 cohort is expected to take place by mid-July 2017 and successful candidates will be notified by email.
