

## Message from the Chairman of the CSR Committee of Marubeni India Pvt. Ltd.

*As a part of Marubeni Group, Marubeni India Private Limited (MIPL) believes that sustained growth is a realistic goal which can be achieved. To do this, we must first remain true to the spirit of our Company Creed of “Fairness, Innovation and Harmony.”*

*Marubeni Group fulfils its responsibility towards the social impact of its businesses by solving social and environmental issues while strengthening its competitiveness, leading to sustainable growth.*

*Under the first theme of “responsibility” we have identified and are addressing such material issues as strengthening corporate governance, strengthening internal controls, strengthening compliance, respect for human rights, promoting human resources development, promoting supply chain management and promoting social contribution activities.*

*Looking at our social contribution activities, MIPL had been making donations and organizing relief camps for areas struck by natural disasters and encouraging its employees to volunteer in local cleanup efforts. To take its CSR program further and celebrate the 20th Anniversary of MIPL in India, MIPL initiated a scholarship program in FY 2016-17 and provided scholarship funds to the needy and talented students. MIPL decided to continue with this scholarship program further in the FY 2017-18.*

*By virtue of this Scholarship program, MIPL seeks to provide access to meritorious students in pursuing post-secondary education to members of our community who otherwise may be constrained due to limited financial means to fulfill their educational goals. Marubeni perceive higher education as a catalyst, an agent of change for individuals, families, communities and nations. We envision a community that recognizes the importance of educational attainment which assures positive educational outcomes that are accessible to all regardless of economic circumstance.*

*Marubeni will continue to promote its CSR activities and remain a trusted partner of our stakeholders by seriously committing ourselves to addressing the social issues.*

**Naoki Izumi**

*Chairman & Managing Director,  
Marubeni India Private Limited*
